Care Instructions

Begonia Mosoniana 'Mountain'

The **Begonia Mountain** is one of those "must have" plants! With its incredible leaf texture, colour and pattern and its retro vibes, it will most definitely catch people's attention! The textured leaves resemble the jagged peaks of a mountain range. Each leaf is a masterpiece on its own, making this plant a captivating centerpiece in any space.

Give your Begonia bright, indirect light. Keep the soil evenly moist but not waterlogged. Water your Begonia when the top layer of soil feels dry.

Light: Enjoys bright, indirect light. Direct sunlight may scorch the leaves.

Water: Water when the top layer of soil is dry. Ensure o not overwater as the roots do not like to be left wet so ensure that your pot and soil have good drainage. Less water will be required over the winter months.

Maintenance. Ready potted in our Foliage Studio premium potting soil, no need to repot for 12-24 months. Fertilise twice in the summer months with our GT Flower Focus Plant Food.

***toxic** if consumed in copious amounts. Keep out of reach from small children and pets.
