Care Instructions

Philodendron Marmalade

The Philodendron Marmalade is a stunning and unique variety of the popular Philodendron genus, known for its striking and vibrant foliage.

This tropical beauty stands out with its glossy leaves that transition in color from a rich, deep green to an alluring golden-orange hue as they mature, giving it a marmalade-like appearance. The leaves often develop a beautiful gradient of colours, making it a true statement piece for any plant collection.

Light: Prefers bright, indirect light but can tolerate lower light conditions. Avoid direct sunlight, as it can scorch the leaves. Loves humidity!

Water: Allow the top layer of soil to dry out before watering. Ensure good drainage, keep moist but do not let pot to sit in water.

Maintenance: Ready potted in our premium soil, so no need to repot for the next 12-24 months. Fertilise with our GrowthTechnology Foliage Focus Plant Food monthly during spring/ summer. Reduce feeding in the colder months.

Air-purifying plant.

Toxic: Keep out of reach from pets and children.
