Care Instructions **Calathea White Fusion**

A must-have for plant lovers who appreciate bold foliage and a touch of the exotic. Add a touch of tropical elegance to your space with the stunning Calathea White Fusion - a true collector's favourite. This rare beauty features lush, painterly leaves with swirls of white, green, and lilac, making each one uniquely patterned. The undersides of its leaves display a soft lavender hue that deepens in low light, creating a beautiful contrast.

Perfect for bright indoor spots away from direct sun, the White Fusion thrives in humidity and rewards consistent care with new, intricately variegated growth.

Light: Medium to low indirect light. Can tolerate lower light conditions. Enjoys humidity. Direct sun and cold draughts will brown the leaves.

Water: Keep soil moist but do not allow the plant to sit in water.

Maintenance: Ready potted in our premium soil, so no need to repot for the next 12-24 months. Fertilise with our GrowthTechnology Complete Focus Plant Food monthly during spring/ summer only.

Toxic: Keep out of reach from pets and children.
