Care Instructions

Philodendron Jungle Fever

Philodendron Jungle Fever is ready to take over your space. With its large, deeply lobed green leaves and fast-growing nature, this plant brings a tropical, untamed energy to any indoor setting. The green Jungle Fever giganteum boasts a rich, uniform green color, making it a striking, low-maintenance statement plant that thrives in the right conditions.

Light: Prefers bright, indirect light but can tolerate lower light conditions. Avoid direct sunlight, as it can scorch the leaves. Loves humidity!

Water: Allow the top layer of soil to dry out before watering. Ensure good drainage, keep moist but do not let pot to sit in water.

Maintenance: Ready potted in our premium soil, so no need to repot for the next 12-24 months. Fertilise with our [GrowthTechnology Foliage Focus](#) Plant Food monthly during spring/ summer. Reduce feeding in the colder months.

Air-purifying plant.

Toxic: Keep out of reach from pets and children.
