## Care Instructions **Syngonium Wendlandii**

Syngonium Podophyllum Wendlandii is a brand new release to the NZ Plant market and is becoming a very popular houseplant. It is commonly grown as for its attractive foliage. The Syngonium wendlandii is an eye catching easy care plant with emerald green leaves and a green-white midvein. As this plant matures, leaves become deeply lobed to the point of forming separated leaflets. Syngonium wendlandii has the ability to purify the air by removing harmful toxins, making it a great choice for indoor spaces.

**Light:** Moderate to bright indirect light. Preferring a warm, humid environment, however very adaptable to cooler conditions.

**Water:** Allow soil to dry out before watering. Ensure good drainage and do not let pot to sit in water.

**Maintenance.** Ready potted in our Foliage Studio premium potting soil, no need to repot for 12-24 months. Fertilise with our GT Foliage Focus Liquid Plant Food monthly during spring/ summer.

\*May cause irritation if ingested. Keep out of reach from children and pets.
